

**GRADES: GL-1 SAE GEAR 90 & 140**

**Product Description**

These gear lubricants are straight mineral oils meeting API Service Classification GL-1. Formulated with highly refined base stocks, they resist oxidation and viscosity thickening, ensuring smooth operation and equipment protection.

**Applications**

Recommended for manual transmissions in passenger cars and trucks where GL-1 service is specified. These lubricants are suitable for applications where extreme pressure (EP) additives are not required.

**Typical Properties**

| Property                | Gear 90 | Gear 140 |
|-------------------------|---------|----------|
| Viscosity @ 40°C (cSt)  | 270     | 563      |
| Viscosity @ 100°C (cSt) | 17.5    | 28.0     |
| Flash Point °F (COC)    | 420     | 425      |
| Pour Point °F           | +5      | +15      |
| API Gravity @ 60°F      | 24.3    | 22.8     |

\*The values shown are typical of current production. Some are controlled in the manufacturing process while others are not. All of them may vary within tolerable ranges.
